

## **OCCUPATIONAL SAFETY:**

1. Occupational Health and Safety Audits and Training -
2. External Safety audit as per I4489 - approved safety auditors as per the CIMAH Rule and as per the Factories Rules including Ship yards.
3. HAZOP studies, Risk Analysis (QRA ) as per IS 15656 Using software D Phast / HAZTECH
4. Site Appraisal, Emergency Preparedness plan and Fire Mock drills – Approvals from the Directorate of Industrial Health and safety
5. Electrical Safety audit as per the IEC Requirements  
Arc flash Hazard analysis  
Electrical zone classifications as per IEC standards  
Combustible dust study  
Energy audit for the LPG, Oil Depots  
Occupational Health and Risk assessment, Industrial hygiene requirements  
Behaviour based safety performance projects for chemical process industries
6. Fire safety systems and Fire Extinguisher servicing.
7. Personal Protective equipment ( PPEs ) as per your PPE matrix
8. Training: - Job Specific Trainings, General Awareness training programmes as per the below attachments
9. Competent person and Testing and Examinations of Lifting Tools and Tackles as per the Factories acts and Rules.
10. Chartered Engineers for your Product Standardization in Bureau of Indian Standards.
11. Work place hazard analysis and Risk Analysis recommendations.

## **Quality, Environment and Health & Safety Management Systems**

1. ISO 9001 – Internal auditor and Basic Requirements to certification audit.
2. ISO 14001 – Aspect and Impact analysis, Internal auditor training.
3. OSHAS – 18001 – HIRADEC and Internal Auditor Training.

### **Health:**

1. Approved Doctors (Factory Medical Officers) as per the Factories Act 1948.
2. Industrial Hygiene and Monitoring as per the GMP, Health Audits & Training

Lead Auditor Resources are available to guide you.

### **TRAINING**

- ❖ Emergency Preparedness plan and Response Mock drills
- ❖ Safe Handling of Chemicals
- ❖ Basic Awareness on Accident Prevention in industries
- ❖ Fire Fighting and Prevention
- ❖ Behaviour Based safety – Why it is required, How to proceed..
- ❖ Electrical safety
- ❖ Fork lift safety, EOT, Lifting tools and tackles
- ❖ Automotive industrial safety requirements
