

Diploma Courses, a program for working professionals and students, is a Government of India-recognized course offered by the Green Global Safety Institute. These courses enable individuals to acquire a wide range of critical knowledge and skills to perform safety professional roles such as fire safety manager, fire safety specialist and fire investigation officers/specialist in the fire and rescue service department. Since workers need to assess buildings' fire safety preparedness and design a strategy to avoid hazards and incidents due to fire, the course focuses on understanding of fire engineering science and safety.
